Subject: PJM CCR Discussion
Location: Microsoft Teams Meeting
Start: 1/27/2022 8:00:00 PM
End: 1/27/2022 8:45:00 PM
Show Time As: Busy

Required Attendees: Hillyer, Kirsten; Huggins, Richard; Behan, Frank; Celeste, Laurel; Versace, Paul; Helm, M. Gary
Optional Attendees: Bryson, Mike E.; Stefanowicz, Vincent; Lee, Ray

Agenda:

- Discuss the PJM outage process
- There are a number of coal-fired generators that serve PJM that have applied for extensions or have decided to cease operations by date certain. For those facilities that have applied for extensions, and have may have those extensions denied, what is the timeframe that actual closure date will be? For example, Clifty Creek has a proposed denial posted, with a comment period ending February 23, 2022.
- How long after the close of the comment period will the final determination be issued, and what would the approximate date of final closure be?
- If a facility needs to cease ash pond use, is there anything preventing them from using an alternative coal ash site (if feasible) or converting the coal unit to a gas unit (again, if feasible)?
